Hi Kristen,

I will send a message to the contractor. What time is convenient for you?

I will send the preliminary results as soon as I receive them. I fully expect all parties to be part of any conversation regarding next steps at the site.

Subject: LDF Haskell Lake Area Contamination

Good Afternoon Bob,

Welcome back from vacation!

The sampling work completed this week should provide some good investigation data. Please send any sample results you receive from the EPA lab or the state. It sounded like REI was interested in a meeting with you and Greer. Please be aware that the Tribe expects to be present in any meeting that EPA participates in with the RP or RP contractor and the State of Wisconsin regarding the Tower Standard Site.

I attached the most recent Tribal Enforcement letter sent to the Kozak's on September 11th, 2015.

Stephanie from CWE stopped by yesterday. I shared pictures of the Nielson sandpoint well. They are bringing appropriate field gear and don't expect any problems sampling the sandpoint well in the yard. What time are you planning on starting next Thursday?

See you next week,

Kristen Hanson
